

What is Paganism?

Pagan: From the Latin paganus (peasant or country-dweller). Paganism is an umbrella term for a number of religious and spiritual traditions that are united by a common belief in animism (everything is alive). Paganism is often called Nature Worship or “The Old Religion” (meaning pre-Abrahamic). Some common beliefs shared by many Pagan paths include: Gaianism, Pantheism, and Immanent Divinity (Divinity is within everyone). Modern Pagans value diversity, good works, care taking the Earth, individual freedom, personal responsibility, and gender equality.
